

# WELCOME TO JROTC

## What is JROTC?

JROTC stands for Junior Reserve Officer's Training Corps. Our program is a student led program in which students are able to step in leadership roles and develop long lasting life skills. JROTC teaches you how to adapt and live a productive life by putting you in situations that teach you new character traits such as leadership, empathy, effective communication skills, decision making, critical thinking and building self-esteem,

## How can I benefit from the JROTC program?

- The class counts towards your required P.E credit.
- When you graduate, you will receive a JROTC cord.
- You will develop leadership and social skills.

## What does JROTC have planned for the school year?

As a program, we provide our cadets with many opportunities for different experiences. The year will consist of events such as volunteering, fundraisers, eagle week, annual holiday luncheon, military ball, and parades.

# OVER THE SUMMER...

In mid June of this past summer, some of our cadets were selected to attend this years' JCLC. The JROTC Cadet Leadership Challenge is a week long program that allows cadets to engage and take on leadership roles that would benefit them and their JROTC program.
